#### PRESS RELEASE

# NCLT approved the resolution plan of Oliver Engineering Private Limited (Oliver) submitted by KFIL

<u>Pune, India – September 14, 2023:</u> Kirloskar Ferrous Industries Limited (KFIL) (BSE: 500245), is one of the leading castings and pig iron manufacturers in India.

The National Company Law Tribunal (NCLT), New Delhi, issued a written order dated September 12, 2023, which was received by KFIL on September 13, 2023, granting approval to the Resolution Plan submitted by KFIL and approved earlier by the Committee of Creditors of Oliver.

## **About Oliver Engineering Private Limited**

Oliver is engaged in the business of ferrous casting and machining with its manufacturing facility located in Village Sandharsi, Tehsil Rajpura, State Punjab. The present capacity of Oliver is 28,000 MT per annum.

## Commenting on this development, Mr. R. V. Gumaste, Managing Director, KFIL, said

"Oliver Engineering is a right fit to our current product portfolio within the casting sector. We are confident on implementing the resolution plan submitted within the time frame.

This acquisition enables us to diversify geographically and meet the increasing demands of our current customers from Northern India. Since the plant was not in operation, we believe it will take around 4 to 5 months to make it operational. We anticipate that this capacity expansion will create valuable synergies for our casting business."

# **About Kirloskar Ferrous Industries Limited**

Founded in the year 1991, Kirloskar Ferrous Industries Limited is one of India's largest castings and pig iron manufacturers. KFIL caters to various industry sectors, such as tractors, automobiles and diesel engines. The manufacturing facilities at Koppal, Hiriyur and Solapur have the unique capability of producing a range of products that include grey iron castings up to 300 kg pieces. KFIL also produces various grades of pig iron such as SG iron grade, basic steel grade and foundry grade. KFIL is expanding its manufacturing capacities in pig iron and casting. KFIL has 3D printing facilities, enabling fast development of new products and capability ramp-ups. KFIL supplies fully machined castings and has added a coke oven manufacturing facility with waste-heat recovery power.
